

Inspiring Others with Our Energy

HOW WE USE OUR ENERGY MATTERS

...to us, and to those around us.

Increasing awareness, building capacity and inspiring positive change are part of our commitment to expanding the use of clean and green energy.

Our undertakings are driven by our country's National Development Goals and the United Nations Sustainable Development Goals.

The energy transition is upon us. National Energy, as part of The NGC Group, is navigating the shift to a sustainable future that will be centred around:

- Energy Efficiency
- Carbon Reduction
- Clean Hydrogen
- Solar and Wind Energy
